

Meeting Report  
ISO TC 188 WG 24  
Berlin, Germany  
June 20, 2017

Technical Committee 188 – Working Group 24, Field of Vision

ISO 11591, Field of vision from the steering position

1. In attendance were representatives from France (2), Belgium, England, Germany, CEN, ICOMIA and the United States (2).
2. Transparency - After a long discussion at the previous meeting, the WG could not agree on requirements for light transmission through the forward windows. (US proposed to be greater than 70% as used in ABYC standards). The result was a proposed deletion of the light transmission requirements from the standard. There are no requirements for light transmission in the RCD. At this meeting, the WG confirmed that the standard will go forward without a light transmission requirement.
3. Next Action: The standard will be submitted to ISO secretariat for a second FDIS vote.
