Reporter: were at the louisville **boat**, rv & sportshow and if there was ever a day to dream about better weather in spring and summer, i think today is it. Well show you all the fun events around and take you to the annual show. Im king of the world. At least we can pretend it is warm out there by being on a **boat**. A dose of cold reality. What was the high in florida? It was in the 70s. Was in orlando and then went to naples to play golf. That is where i was. Hello. I miss you. I dont like you all of a under s en d. I parred that hole. That is number 2. Was this the day you played then? That was a couple days ago. I took that picture. This is what i saw when i left the airport. That was what was on the road at midnight. That is where i was. Heavy snow. This is where i am. Life is cray cray. Welcome back to kentuckiana. That is all i can say. We had that little dusting last night. Kristen will talk about the big story, the cold today. Nothing is melting which is part of the problem. But you did have some company down in florida. You went to the uofl game last night. I brought my buddies and said bring some basketballs. We were in tampa. The cards led by 23 at the half. 16 From wayne black sheer. 14 From him. He does it aga. By the time the final score, louisville increased the lead to 39 points. They were great last night. And mango was phenomenal again. Luke obviously back as we say. And terry is playing great without chris in there. Chris is not going to be back. He is having trouble with that one muscle. Was louisville on all cylinders or was south florida? I think they are clicking very well. They are playing defense the way coach pitino wants and they are slamming those boards and getting rebounds. He slammed you that you were not on the show this week. I look forward to that. They taped the coaches show a couple days ago. I didnt get to talk to rick down in florida. I was in the stands and he was coaching. They did very well. A more challenging year ahead for the cards football team. I know you were reading about that this morning because the new acc schedule just came out yesterday and boy what a schedule. The cards open at home september 1st internationally televised labor day game against miami, the team they beat. And bobby petrino says it is a great motivator for the team, they will play murray state next on september 6th. Then bcs champ florida state, hello. That is the day before halloween. That is the hines man trophy winner. That is big. And then louisville will close out the season so this is new too. Closing out against kentucky at home on november 29th. Those games begin the season but are going to end the season. That is a week after they beat notre dame so it is a good run. All good. That is quite a lineup isnt it? Yes. Louisville at notre dame. We have dreamed about that for a long time. We dont know when they will bring out the black uniforms yet? Game 1. lets do it. Bobby, are you listening. He had a \$26 million rookie deal

with the tennessee titans. I hate hearing this stuff. It isough. It has been over two years since he played an nfl game and now he filed for bankruptcy. Part is from a \$2 million loan for the 2011 lockout but he said he never got the money because his former agent kept it. His assets are as high as a million dollars. His debt ten million dollars. I know he was with the packers for a short time and buffalo bills but did not make either roster. Others that filed in the last few years, i saw something on espn not too long ago how they are trying to turn things around to give them more financial help on the up front to make sure this didnt happen. One of the players they interviewed that i had no identified for bank sy was bernie cozart and it was a lot with him about how can we educate some of the players more when the going is good to invest wisely and be smart. They have some friends that lead them down bad paths too. Well in contrast to the big nfl players salaries, can you guess how much the professional cheerleaders are paid? A cheerleader is suing the raiders saying she averaged less than \$5 an hour below minimum wage. She also said the raders got no time for meals or rest breaks. That is all paid at the end of the season, so it breaks down that way. That is rude. They are bankrupt before they get started. That is tough going. This is what i woke up to this morning. Justin beiber is in jail. I thought, good. Well, he is flaming out. I dont know. Arrested early this morning in miami charged this time with drag racing a rented yellow lamborghini. The 19-year-old taken into custody apparently under the influence, not the first time he has had trouble just this week. Yesterday there was an investigation that he got an unauthorized police escort where this happened this morning and earlier this month, the raid of his home ended with a friend arrested on drug charges. They raided the house because the neighbors said he egged it and caused \$20,000 worth of damage. Pa picture they took yesterday afternoon showed his dad behind him and heis taking pictures. His dad is a fan. Maybe he should be a dad. After this maybe this is a wake-up call. After this, after that. The pattern is there. At least the stars know what they are signing up for but what if the performers are animals? An animal planet sh they claim drugged them separating babies from their mothers before they were ready and staged many of the scenes, call of the wild man with kentuckys own turtle man. They were deeply upset. This zebra which they confirm was drugged with sedatives before performing on camera. Contradicting an account, animal planet and shop entertainment said it was given behind their backs without their consent. That production company says while some of the scenes may be scripted and staged, they say the animals are actually rescued, relocated and given a second chance at life. I have a feeling well hear more about that. Indeed. Well keep up with that story. And this story is wrong. They were here for the crusade years ago. I wonder if there is a twist in this with the healthcare. Hang on. Celebrity marriages come and go but we never expected this one to sink. Captain and tin kneel calling it quits after almost 40 years together although they are still living in the same home. Married in 1975. Last time tony filed for divorce. He is a captain. She is 73. He is 71. Cradle robber but here is the rest of that story. Three years ago tony said darrell suffered from a neurological condition similar to parkinsons disease so the speculation is they separate because the bills start piling up? Right. I dont know if that is the case, but some were speculating that may have been more of an agreement with that. Because you could spend all your money on healthcare. Well, good luck to both of them. They were great when they were here years ago to the crusade. Yes. Would you like to see david beckhum covered or uncovered? You didnt answer the question. You dont have to answer. Put that football on. Lets see the pictures. Many super bowl advertisers are leaking commercials. Is that covered or uncovered? Commercials come out early every year. They are keeping theirs under wraps but maybe not the stars of the spots themselves. There is mr. Posh spice with two commercials, covered and uncovered. Fans can vote for which one they want to see during the super bowl. I still dont know the answer. He is not going to be naked i guess that was partially uncovered. A brush with greatness. For a louisville plumber he knocked on a door, came face todays with the wife of mohammed ali. She invited him back in an hour to meet her hubby. He posted this photo on facebook. How awesome is that? Posingith the great fest. He is from ireland so friends overseas started sharing this and it went viral. To make it more special this happened to be alis 72nd birthday. He said that is alis house. I am going to see if it is. Knock, knock. Come back in an hour and you get to meet the champ. Most suffering from a bout of cabin fever. Angie is talking **boats**, jetskis, camping and fishing at the expo center. Reporter: were here at the kentucky expo center at the louisville **boat**, rv & sportshow. Talk about a dream job. This is the **boating** guy. You have to explain what that means, the **boating** guy. I get to travel from show to show and talk about the **boating** industry. Youre not just traveling in the states though. Youre worldwide. I do get to do a lot of international travel and there is no better lifestyle than being on a **boat** with your family and friends. Reporter: we agree. We have the great ohio river here. This is clearly a main stay, a tradition in louisville. What better way to kind of pretend like were not going through these frigid temperatures. It is nice and warm. Jimmy buffet music is playing

in the background during the day. And this is probably the premiere show in the entire midwest area. Reporter: we can't cover it all in one morning. Plus you can see over 400 **boats**, there are hundreds of RVs, lots of kids features. You can go trout fishing if you want to do that. There are a ton of seminars. DIY **boat** maintenance or how to buy an RV, whatever you like. The paddle fest for all the folks that like to do paddle activities. There is so much stuff wall to wall, lots of things to do for the entire family. Reporter: when it comes to the trout fishing, are we practicing catch and release? It is for the kids, but they send some of the trout home for the kids too who want to keep them. There is no other place in Louisville today where you can catch a trout and take it home with you. Reporter: we were talking before we went on air. You said a statistic. There is a huge correlation between the pet industry and the **boat** industry. People who own **boats** almost 80% of them own dogs as well. Reporter: that means I need to get on that **boat** owning. Give us the details. Open today until 5:00. Friday noon to 9:00. It is a really affordable event. It is \$10. Gets you in as an adult. Kids 15 and under free to get in. Plus you can electronically buy your ticket ahead of time online and save time in line here. Reporter: that is fantastic. Coming up I'm going to get on the water with the **boating** guy. A close-up of that. They get a new chef every six months. A family restaurant that has been around for 90 years is sure something to celebrate. Today they are celebrating the opening day of the 90th season with their hot rod show, singing competitions and famous as their fish sandwiches, hi. You look wonderful for 90. [Laughter] thank you. Thank you. The first 90 people that walk in the door today will get a piece of 90th birthday cake. Were celebrating today. All the employees will be in their birthday gear so it will be fun today, starting at 11:00 A.M. .. Who came up with the fish, breeding the fish and so forth? It was my dad and my uncle. They started with the breeding of the chickens and the fish and the onion rings and developed it more into a sit-down restaurant. But when they started it, they realized I guess you said it was an Irish German population? It was in the city and they first started as a roadside stand selling fruits and vegetables and that was the first building that was constructed. That is Mike in front of it. That was where his farm was. That is. That was about 1950. And Nancy, I don't know any better, were they fishing out of the Ohio the back then? That is my uncle and he was in partnership with my dad and their wives. It is a white cod. And it comes from Iceland and the North Atlantic Ocean. That is my grandfather, Mike. That is the one who started it all. And Kerry. He was married to Kerry and they had 8 children. These are customers. They are customers. That was last summer. [Laughter] that was the summer of 1959. That is the summer of 1955. That is what is great, you have family gatherings and people say, let's have a family reunion. And with social media, people are sharing the stories. I took my first steps there or all kinds of things. You're encouraging people to share those with you. Yes, I was engaged there. That is my dad. That is a 400-pound fish that he caught off the coast of Florida. How many fish sandwiches did that make? [Laughter] and he stuffed the head of that fish. He was so proud. He had a little trailer built for it to bring it back from Florida. He brought that back? It took two weeks but it got it back home and he was so proud and they stuffed the head. They took the bottom off and fileted it. You're open today. Probably outside seating won't be open for awhile. It is always open. You can go out there if you like. We want to let people know, all sorts of businesses that are down there that even though it is cold, you get busy, even right now. We have a big lunch crowd everyday. The river port area down there. People come in for a fish sandwich and we'll continue events throughout the year, too. It has been a big part of it. The square dancing and boxing now to karaoke contest and hot rod shows. Thank you for sharing your birthday with us. We said you deserve a shout out and applause for that. Thank you. Today is opening day. 9308 Cane Run Road. They will be open until the week before Thanksgiving. The only boxing that happens there now is somebody that tries to bite into your fish sandwich. 937-9888. Shannon and Nancy, great to see both of you. A reminder, the outside eating area is open but you may not want to fry it just yet. [Laughter] Kristen Walls will tell you it is too crazy cold for that. Reporter: you'll get frostbite if you're outside longer than 30 minutes. Windchills between 10 to 20 degrees below zero. We have the windchill advisory in effect until midday today. Dress in layers before you head out the door. You can see the sunshine is back out for today. May have a few lingering flurries for this morning. Looking at windchill values below zero, up to 3 right now in Austin but 12 degrees in for the Knocks. Bedford clocking in at 14 degrees below zero. We will not see these windchill values improving that much. Later this afternoon only looking for your actual temperature to warm up into the low teens. Windchill values will be slightly below zero to 2 degrees above zero in the metro. Toward Friday morning, still looking at the windchill values below zero. A dry day tomorrow. Mostly sunny skies and windchills will creep up above the zero mark. A chance for snow moving back into the area after

midnight on friday. Mostly throughout the overnight hours well see the snow moving in. A couple inches expected for most of the area. Could see some locally higher amounts to the north. That snow should be out of here as we head towards saturday afternoon. We should make it slightly above the freezing mark for saturday and the same into our day on sunday. You can see here with your seven-day forecast should be in to 38 degrees on sunday and then after that system is through maybe only a few flurries possible out of that bit brutally cold temperatures back in the teens for monday into tuesday with the low temperatures back down to the single digits. Reporter: were at the louisville **boat**, rv & sportshow and if there was ever a day to dream about better weather in spring and summer, i think today is it. Well show you all the fun events around and take you to the annual show. Im king of the world. At least we can pretend it is warm out there by being on a **boat**. A dose of cold reality. What was the high in florida? It was in the 70s. Was in orlando and then went to naples to play golf. That is where i was. Hello. I miss you. I dont like you all of a under s en d. I parred that hole. That is number 2. Was this the day you played then? That was a couple days ago. I took that picture. This is what i saw when i left the airport. That was what was on the road at midnight. That is where i was. Heavy snow. This is where i am. Life is cray cray. Welcome back to kentuckiana. That is all i can say. We had that little dusting last night. Kristen will talk about the big story, the cold today. Nothing is melting which is part of the problem. But you did have some company down in florida. You went to the uofl game last night. I brought my buddies and said bring some basketballs. We were in tampa. The cards led by 23 at the half. 16 From wayne black sheer. 14 From him. He does it aga. By the time the final score, louisville increased the lead to 39 points. They were great last night. And mango was phenomenal again. Luke obviously back as we say. And terry is playing great without chris in there. Chris is not going to be back. He is having trouble with that one muscle. Was louisville on all cylinders or was south florida? I think they are clicking very well. They are playing defense the way coach pitino wants and they are slamming those boards and getting rebounds. He slammed you that you were not on the show this week. I look forward to that. They taped the coaches show a couple days ago. I didnt get to talk to rick down in florida. I was in the stands and he was coaching. They did very well. A more challenging year ahead for the cards football team. I know you were reading about that this morning because the new acc schedule just came out yesterday and boy what a schedule. The cards open at home september 1st internationally televised labor day game against miami, the team they beat. And bobby petrino says it is a great motivator for the team, they will play murray state next on september 6th. Then bcs champ florida state, hello. That is the day before halloween. That is the hines man trophy winner. That is big. And then louisville will close out the season so this is new too. Closing out against kentucky at home on november 29th. Those games begin the season but are going to end the season. That is a week after they beat notre dame so it is a good run. All good. That is quite a lineup isnt it? Yes. Louisville at notre dame. We have dreamed about that for a long time. We dont know when they will bring out the black uniforms yet? Game 1. lets do it. Bobby, are you listening. He had a \$26 million rookie deal with the tennessee titans. I hate hearing this stuff. It isough. It has been over two years since he played an nfl game and now he filed for bankruptcy. Part is from a \$2 million loan for the 2011 lockout but he said he never got the money because his former agent kept it. His assets are as high as a million dollars. His debt ten million dollars. I know he was with the packers for a short time and buffalo bills but did not make either roster. Others that filed in the last few years, i saw something on espn not too long ago how they are trying to turn things around to give them more financial help on the up front to make sure this didnt happen. One of the players they interviewed that i had no identified for bank sy was bernie cozart and it was a lot with him about how can we educate some of the players more when the going is good to invest wisely and be smart. They have some friends that lead them down bad paths too. Well in contrast to the big nfl players salaries, can you guess how much the professional cheerleaders are paid? A cheerleader is suing the raiders saying she averaged less than \$5 an hour below minimum wage. She also said the raders got no time for meals or rest breaks. That is all paid at the end of the season, so it breaks down that way. That is rude. They are bankrupt before they get started. That is tough going. This is what i woke up to this morning. Justin beiber is in jail. I thought, good. Well, he is flaming out. I dont know. Arrested early this morning in miami charged this time with drag racing a rented yellow lamborghini. The 19-year-old taken into custody apparently under the influence, not the first time he has had trouble just this week. Yesterday there was an investigation that he got an unauthorized police escort where this happened this morning and earlier this month, the raid of his home ended with a friend arrested on drug charges. They raided the house because the neighbors said he egged it and caused \$20,000 worth of damage. Pa picture they took yesterday afternoon showed his dad behind him and heis taking pictures. His dad is a fan. Maybe he should be a dad. After this maybe this is a wake-up call. After this, after that. The pattern is there. At least the stars know what they are signing up for but what if the performers are animals? An animal planet sh they claim drugged them separating babies from their mothers before they were ready and staged many of the scenes, call of the wild man with kentuckys own turtle man. They were deeply upset. This zebra which they confirm was drugged with sedatives before performing on camera. Contradicting an account, animal planet and shop entertainment said it was given behind their backs without their consent. That production company says while some of the scenes may be scripted

and staged, they say the animals are actually rescued, relocated and given a second chance at life. I have a feeling well hear more about that. Indeed. Well keep up with that story. And this story is wrong. They were here for the crusade years ago. I wonder if there is a twist in this with the healthcare. Hang on. Celebrity marriages come and go but we never expected this one to sink. Captain and tin kneel calling it quits after almost 40 years together although they are still living in the same home. Married in 1975. Last time tony filed for divorce. He is a captain. She is 73. He is 71. Cradle robber but here is the rest of that story. Three years ago tony said darrell suffered from a neurological condition similar to parkinsons disease so the speculation is they separate because the bills start piling up? Right. I dont know if that is the case, but some were speculating that may have been more of an agreement with that. Because you could spend all your money on healthcare. Well, good luck to both of them. They were great when they were here years ago to the crusade. Yes. Would you like to see david beckhum covered or uncovered? You didnt answer the question. You dont have to answer. Put that football on. Lets see the pictures. Many super bowl advertisers are leaking commercials. Is that covered or uncovered? Commercials come out early every year. They are keeping theirs under wraps but maybe not the stars of the spots themselves. There is mr. Posh spice with two commercials, covered and uncovered. Fans can vote for which one they want to see during the super bowl. I still dont know the answer. He is not going to be naked i guess that was partially uncovered. A brush with greatness. For a louisville plumber he knocked on a door, came face todays with the wife of mohammed ali. She invited him back in an hour to meet her hubby. He posted this photo on facebook. What better way to kind of pretend like were not going through these frigid temperatures. It is nice and warm. Jimmy buffet music is playing in the background during the day. And this is probably the premiere show in the entire midwest area. Reporter: we cant cover it all in one morning. Plus you can see over 400 **boats**, there are hundreds of rvs, lots of kids features. You can go trout fishing if you want to do that. There are a ton of seminars. Diy **boat** maintenance or how to buy an rv, whatever you like. The paddle fest for all the folks that like to do paddle activities. There is so much stuff wall to wall, lots of things to do for the entire family. Reporter: when it comes to the trout fishing, are we practicing catch and release? There is benjamin and hes doi tricks right now, and nick over there and zack. And mike brown right here. Your boys are fearless. You have a trampoline at the house and this setup here this concept. They can go out in in the traditional way and take a beating and this is the safest way to learn as far as what we have experienced. So nick, right here, hes a pro. And he knows what hes doing out there on the water and the trampoline. Hes working on spin and flip drills working on line tensions so that he can use the rope. The fight are at ten the 12:00. Zack here, 16 years old, and really, im afraid that hes going to hit the trailer back he. But, no, the rope is at the right distance, and he can control himself on where he is on the water too. Yes. Balance where the front of the trampoline because a lot of tricks, like that right there, therell throw the feet back and. Sometimes, things do happen, and, they have hit the trailer and hit the wall. And, you know. Thats part of traing, and you have to you wiped out, zack. Get out of there, it is my turn. But, yeah, the louisville boat and rv and sports show. Come on out and enjoy yourself and these guy will be doing demos all day long. Grab that for me and move it a little faster. Eric Crow for joining me on the sports page and Eric were talking under the NFL football, the new schedule is out and there should not be any complaining about this year's schedule not being tough enough. There will not be any complaining. This has been a day we've waited for for a long time. They get their first schedule in Atlantic Coast Conference and starts off with a bang. They play Miami at home on Monday night football to open the season. Labor Day. Pretty cool. Pretty cooling big games, they've got a home game against the defending national champion Florida State two Clemson and two Notre Dame and not much more you could ask for. That's a big time schedule and you talked to Bobby Petrino about what he likes to do in the summer preparing and this will be a little different. He's a little different because he likes to get a full game plan on every team that they are going to play during the off season and in this case, there's a lot of teams he has not faced and Louisville has not faced. I talked to him about that process and a column at WDRB.com. All right, Eric writes about and it check it there. WDRB.com. And it will be very intriguing year indeed, Eric. Thank you. Thank you. 16:15:29.00 At the close, the Dow is down just over 41 points at the Nasdaq up more than 17 its a loud request in Kentucky Capitol today. Hundreds of state transportation workers and other employees rallied for more money. They're pushing state leaders to approve cost of living increases this year saying their salaries are not on par with inflation. So they're doing things to cut costs to make it. But it's getting harder and harder when everything else is going up and up and the pay is not going up at all. Even with electric and water it has just been astronomical in the last two years. But you can't do anything about it. Reporter: the rally comes one day after Kentucky Governor Steve Beshear outlined a bleak budget proposing 5% cuts in several state agencies to fund education. It seems a little weird to think about boats and R.V.s on a day when the high temperature is in the teens. But WDRB's Chris Sutor explains a lot of people are getting ready to head out to the Louisville Boat RV and Sports Show. Dealers will be there. There are a lot of interactive average activities for families, too. Organizers say it also helps everyone escape the brutal winter weather.
