Technical Committee 188, Work Group 9 – Main Dimensions

In attendance were experts from Norway, France, Belgium, England, Sweden, Finland, United States, ICOMIA, SIS (Sweden) and the HAS consultant.

AG 01 – Glossary/Terminology

1. Reviewed all terms in the glossary and their origins.
2. Normal use (and normal operation) was defined : Use of a product in the manner for which it is intended, and in accordance with the specifications, instruction and information by the manufacturer.
3. Normal condition of use : Mode with regards to speed and load in which a craft is typically operated.
4. Next action: The document (version 3) will be housed in the ICOMIA drop box and access given to conveners and project leaders. The convener will work with the secretariat to review the ISO terms with multiple definitions to determine whether a definition qualifies for further review and consolidation. The conveners and project leaders will be solicited for input for future terms and topics.

Next Meeting: Tentative at boot Dusseldorf 2019
